

POJK 51/POJK.03/2017

Implementation of Sustainable Finance

Key Highlights for AI System Training

Key Highlights to Bookmark:

- Appendix reporting table format (7 columns: No., Indicator, Unit, Current Year, Previous Year, Change%, Target)
- Article 4–7: governance requirements
- Official Bahasa Indonesia terminology (for bilingual reporting)

Section 1: Appendix II — Reporting Table Format

Template Variable: {rag_context_ojk_table_format}

i Article 10 paragraph (8): "The Sustainability Report must be prepared in the format as referred to in Appendix II which is an inseparable part of this Financial Services Authority Regulation." This table format is **MANDATORY** for all Indonesian sustainability reports.

Mandatory 7-Column Table Structure

No.	Indicator	Unit	Current Year	Previous Year	Change (%)	Target
1	GHG Emissions Scope 1	tCO2e	[data]	[data]	[calculated]	[target]
2	GHG Emissions Scope 2	tCO2e	[data]	[data]	[calculated]	[target]
3	GHG Emissions Scope 3	tCO2e	[data]	[data]	[calculated]	[target]
4	Total GHG Emissions	tCO2e	[data]	[data]	[calculated]	[target]
5	Emission Intensity	tCO2e/Rp M	[data]	[data]	[calculated]	[target]
...	[other indicators]	[unit]				

Column Definitions

Column	Description
No.	Sequential indicator number
Indicator	Name of environmental/social/governance performance indicator (e.g., GHG Scope 1, Energy Consumption, Green Portfolio)
Unit	Unit of measurement (e.g., tCO2e, MWh, Rp billion, %, number of people)
Current Year	Current reporting year value (N). Data from esg_aggregated zone.
Previous Year	Prior year value (N-1). For year-over-year comparison.
Change (%)	Percentage change = $((N - N-1) / N-1) \times 100$. PRE-COMPUTED in aggregated zone (REQ-ETL-26). LLM must NOT recalculate.
Target	Target value for the indicator. From institution strategy/RAKB document.

i Spec Section 5.3.4 mandates this OJK table format. The AI system **MUST** generate tables in this exact 7-column structure when framework = OJK_PSPK. Change% is pre-computed (REQ-ETL-26) — the LLM must use it verbatim.

Section 2: Article 4–7 — Governance Requirements

Template Variable: {rag_context_ojk_governance}

i These articles define the governance structure for sustainable finance implementation. The AI system uses these requirements when generating Governance sections with framework = OJK_PSPK.

Article 4 — Sustainable Finance Action Plan (RAKB)

(1) Financial Services Institutions (LJK) are required to prepare a Sustainable Finance Action Plan (RAKB) in the format of Appendix I of this POJK.

(2) The RAKB must be submitted annually to OJK: (a) together with the business plan, or (b) no later than January 31 for LJK not required to submit a business plan.

(4) The RAKB must be prepared by the Board of Directors and approved by the Board of Commissioners.

Article 5 — Effective Implementation

Financial Services Institutions are required to implement the Sustainable Finance Action Plan effectively.

Article 6 — Communication

Financial Services Institutions are required to communicate the RAKB to:

- a. shareholders; and
- b. all levels of the organization within the LJK.

Article 7 — RAKB Priorities

- (1) The RAKB must be prepared based on the following minimum priorities:
 - a. development of Sustainable Financial Products and/or Services, including increasing portfolio in financing, investment in financial instruments or projects aligned with Sustainable Finance;
 - b. development of internal capacity of the LJK; or
 - c. adjustment of organization, risk management, governance, and/or SOPs of the LJK in accordance with Sustainable Finance principles.
- (2) The RAKB must include a target timeline for implementation.

Section 3: Official Bahasa Indonesia Terminology

Template Variable: `{rag_context_ojk_terminology}`

i Spec Section 5.3.4: "Bahasa Indonesia toggle instruction (default: English)". These are the official terms from POJK 51 that must be used in bilingual reporting. The AI system should use English as primary with Bahasa terms in parentheses for OJK-specific sections.

English Term	Bahasa Indonesia (Official POJK 51)
Sustainable Finance	Kuangan Berkelanjutan
Sustainable Finance Action Plan	Rencana Aksi Keuangan Berkelanjutan (RAKB)
Sustainability Report	Laporan Keberlanjutan
Financial Services Institution	Lembaga Jasa Keuangan (LJK)
Board of Directors	Direksi
Board of Commissioners	Dewan Komisaris
Corporate Social Responsibility	Tanggung Jawab Sosial dan Lingkungan (TJSL)
Sustainable Financial Product	Produk dan/atau Jasa Keuangan Berkelanjutan
Risk Management	Manajemen Risiko
Governance	Tata Kelola
Incentive	Insentif
Green Portfolio / Sustainable Portfolio	Portofolio Hijau / Portofolio Berkelanjutan
Emission Intensity	Intensitas Emisi
Greenhouse Gas Emissions	Emisi Gas Rumah Kaca (GRK)
Annual Report	Laporan Tahunan

Business Plan	Rencana Bisnis
Standard Operating Procedure	Standar Prosedur Operasional (SPO)
Current Year	Tahun Berjalan
Previous Year	Tahun Sebelumnya
Change (%)	Perubahan (%)
Target	Target
Indicator	Indikator
Unit of Measurement	Satuan

KBMI Classification (Bank Size Tiers)

Spec Section 5.3.4 references KBMI classification for OJK reporting context:

Tier	Core Capital (Modal Inti)	Context
KBMI 4 (ex-BUKU 4)	> Rp70 trillion	BCA, BRI, Mandiri, BNI — earliest compliance
KBMI 3 (ex-BUKU 3)	Rp14–70 trillion	Major banks — early compliance group
KBMI 2 (ex-BUKU 2)	Rp6–14 trillion	Mid-size banks — phased compliance
KBMI 1 (ex-BUKU 1)	Rp1–6 trillion	Smaller banks — latest compliance deadline
